Tuesday Evening, Oct. 9th, 1894.
 Speakers—Hon. J. V. Cuff and J. H. Resh.

At Skate's School House, Liberty township.
Saturday Evening, Oct. 20, 1894.
 Speakers—J. H. Resh and Thomas A. Conway.

THE average Republican will almost have rabies should you mention the steady decline in sugar under the new Democratic tariff bill.

RUSSELL of the *Signal* and Mires of the *Liberty Press* have resolved themselves into a mutual admiration society over their pet scheme—the Damascus ferry. The people of Henry County will go into committee of the whole on the 4th day of November and resolve to bury these two worthies and their scheme.

THE whole administration of Russell as Auditor of Henry County was one of exasperation and interlineations, as the records in the office show. And his work was so bungled up that it was months after Auditor Resh took the office before he (Russell) got them straightened out, and withal the books are in a sorry plight. There is as much difference in the records made by Auditor Resh and those made by Geo. Russell as there is between night and day. Even the Republican State Auditor admits that the settlement sheets made by Mr. Resh are perfection themselves. In the face of all this, the editor of the *Signal* is trying to throw suspicion upon Auditor Resh's ability and honesty. It won't win.

THE attention of the postoffice department at Washington is to be called to the shameful conduct of the present postmaster, in absenting himself from his official duties to attend to outside matters, and especially running over the county to attend republican conventions and political gatherings. Such actions are clearly in violation of the postoffice rules, and in themselves sufficient to cost Mr. Russell his official head. But, outside of this violation of rules, his continued absence from his official duties entails hardships and responsibilities upon his patient and efficient lady deputy, which is taxing her far above her strength, especially so for the small pittance she receives. This should not be, and such actions under a Democratic administration ought not to be tolerated, therefore, the resignation of postmaster Russell should be asked for at once, and he should not stand upon the order of his going, either.

THE Napoleon ring of Republican bosses and slate makers seem to have a cinch on the papers published outside of the county seat, unless we except the McClure *Free Press*, as they are about all barking up the same tree and their game seems to be the county commissioners. This state of affairs looks quite suspicious, so much so that the intelligent voter can put this and that together and arrive at a correct conclusion. But it settles one thing, the *Signal* can no longer boast of being the only Republican paper in the county, and in the minds of the people it has probably settled another fact, i. e. that the county commissioners are hewing to the line in trying to extricate the county from the bad management inaugurated under the Russell administration of the Auditor's office. With the affairs of the county in such good hands as Auditor Resh and Commissioners King, Burr and Reiser, the people can rest easy.

So far the *Signal* has not dared to deny our charge that the Republican county ticket was made up right here in Napoleon weeks before the county convention was called to nominate a ticket. The candidates were all selected by a few of the Republican bosses of Napoleon, then they called the county convention to ratify their selections! This we have charged time and again, and now reiterate the charge. Good and true Republicans were brow beaten and whipped off the track when they made known their intent of becoming candidates before the Republican county convention by the Napoleon gang, who had prepared a slate ticket which they compelled the rank and file of the party to swallow, whether they wanted to or no.

Such high handed business would be tolerated in no other political party, and we are not sure that it will be by the Republicans. It certainly will not if the rank and file of the Republican party has a spark of manhood about it. Let ring rule be throttled, and no better time to do it can be found than at the November election this year!

ANY one who is a weekly reader of the *Signal* must now be fully convinced that it is fully in accord with the scheme to establish a ferry at Damascus at the expense of the taxpayers of the county. Its every utterance and act points that way, and its editor came near renting his clothes in his anger when the Democratic board of county commissioners refused to establish the ferry. Putting this and that together, it is as clear as clear can be that the Republicans have fathered the scheme, and that they have as much as committed their candidate for county commissioner as favorable to the cause. If this is not so, then why does the organ of the Republican party, the *Signal*, take such a deep interest in the matter of the establishment of a ferry at Damascus? There can be but one conclusion, the Republicans will push the scheme if they are successful in electing their candidate for commissioner. The taxpayers of Henry County should see to it that the board of county commissioners remains as it is, as it is with them against the Republican scheme.

THE New York *Sun*, which claims to shine for all, does not shine kindly on the silver plank in the Ohio Democratic platform. The *Sun* says that if it were incorporated into law it would "double the price of wheat, corn and other agricultural products." That's what the farmers want. They want a law in regard to finances that will give a certain promise of an increase in the price of their wheat, corn and other agricultural products. If the farmers of Ohio shall elect the Democratic ticket in November, silver will command respect and consideration at Washington. Vote for John S. Snook for Congress, in fact to make the victory complete vote the whole Democratic ticket, from top to bottom.

THE Democratic State ticket is headed by a gallant one-armed soldier. He was nominated two years ago for Congress in the Fifteenth district against a Republican banker and capitalist, and came near overcoming the immense Republican majority. He will make an aggressive, gallant campaign this year.

THE Democrats of Defiance county have placed in nomination the following excellent ticket: For Commissioner Henry Ort, Sheriff W. L. Rath, Infirmary Director Ulrich Ball. The ticket should be elected by a large majority.

Dr. Price's Cream Baking Powder
 World's Fair Highest Medal and Diploma.

Democratic Meetings!

Hon. J. S. Snook,
 Democratic candidate for Congress, will address the people as follows:
 LIBERTY CENTER,
 Monday night, October 8th.
 MCCLURE,
 Tuesday night, October 9th.
 DESHLER,
 Wednesday night, October 10th.
 MALISTA,
 Thursday night, October 11th.
 HOLGATE,
 Friday night, October 12th.
 HAMLER,
 Saturday night, October 13th.
 WEST HOPE,
 at 2 o'clock Saturday afternoon, Oct. 13th.

\$7,000.00!
MORE BONDS PAID OFF.
 Keep Her Up, Boys, the People Are With You.

The County Commissioners redeemed \$7,000 more in bonds on Monday, thereby reducing the bonded debt just that much and relieving the people from paying interest.
 The bonds redeemed were:
 Eight Ridgeway Gravel Road Bonds, representing \$4,000.
 Three Court House Bonds, representing \$3,000.
 There is no mistake about it, the present county management is bound to reduce, if not wipe out entirely, our bonded debt, to which all will say amen!

The Napoleon Republican gang of slate makers are trying to sidetrack this good work, by getting up strife between the people and the Democratic management of county affairs, but it won't win this time, as the people are with our good officials who are trying to do the right thing.

Down with all manner of calamity howlers, is the cry. The people stand shoulder to shoulder with our officials in the good work and will see to it that it is not interfered with.

THE editor of the *Signal*, the ex-reform(?) Republican County Auditor, drew in clean cash from the Henry county treasury during his three years of misrule of the Auditor's office, the sum of OVER TWELVE THOUSAND DOLLARS! Or a sum equal to as much as is drawn by all three of the County Commissioners for a like number of years. Then, too, Mr. Resh, our Democratic County Auditor, is doing more and better work than Mr. Russell ever did at a saving to the people of Henry county of many thousands of dollars. Yet, in the face of all this, the ex-reform(?) Auditor has the extreme gall to leave the impression with the readers of the *Signal* that our County Commissioners charge too much for their labor! Let him cover back into the county treasury about one-fourth of the large amount of money he has taken from the people during his term as Auditor, then he might claim the right to open his mouth. But, so long as he don't do this, his lips should be sealed against insinuating that his brother official was a thief!

SENATOR DAVID B. HILL was nominated for Governor by the New York Democracy last week, amid wild enthusiasm. The nomination was made, notwithstanding Mr. Hill said he could not accept. It is hoped Mr. Hill will consent to accept. If he does New York is doubly sure for the Democrats.

It is worthy of note that the only mills being closed under the new tariff are sugar mills. It must not be forgotten that, according to McKinley's predictions, the only business enterprise in the country that was to prosper was the sugar trust. The prediction needs serious revision.—*Plain Dealer*.

The readers of the *Signal* will not be told by that paper about the decline in sugar. The *Signal* must feel cheap indeed, after telling its readers that sugar was going up in price when it was actually going lower. Even if it does acknowledge its perfidy it will ascribe some other reason for the decline in sugar than the new tariff law. That's a Democratic law, and whatever smacks of Democracy is no good in the eyes of that sheet.

Tired, Weak, Nervous.
 Means impure blood, and overwork or too much strain on brain and body. The only way to cure is to feed the nerves on pure blood. Thousands of people certify that the best blood purifier, the best nerve tonic and strength builder is Hood's Sarsaparilla. What has done for others it will also do for you—Hood's Cures.

Hood's Pills' cure constipation by restoring peristaltic action of the alimentary canal.

34,000!
 The *Signal* accusing Auditor Resh of interlineation of the records, puts one, who is acquainted with the facts, very much in mind of the kettle calling the pot black. The editor of the *Signal* was so in the habit of interlineation of the records when he was county auditor that he well earned the name of "Interliner George," a name which will stick to him as long as he lives. In fact, Henry county never had an auditor who paid so little attention to the letter of the law as George Russell did, and at one time during his official term he came very close to having impeachment proceedings commenced against him for peculiar and suspicious actions.

Bro. Russell in his last week's *Signal* tries hard to make it appear that officers of public trust should never make errors, and if they do, that they have no right to correct them. If this be true, what must be the conclusion of the taxpayers, should they enquire into and examine the records which he made, or attempted to make, while he was Auditor of Henry county? We invite the attention of the taxpayers for a moment to the Auditor's Record and Treasurer's Duplicate No. 1, for the year 1889, made by Geo. Russell. Now turn to Napoleon corporation, and you will notice without any trouble the wholesale erasures and corrections made by this self-praised, expensive, reform(?) ex-Auditor. Commencing upon page 75, continuing to page 143, of each book, you will find 136 pages of figures that have been mutilated and tampered with! A fair average of the number of figures on a page is 250, multiplying by the number of pages—136—you will have the astounding result of THIRTY-FOUR THOUSAND FIGURES ERASED AND CHANGED! This was done to correct but one of the many errors made by Bro. Russell in the three years that he was Auditor.

Dear reader, isn't it spreading it on pretty thick for this Republican reform(?) ex-Auditor to sit himself up as a censor of the actions of an officer who is so far above him as an honest and painstaking official as God is above the incarnate one! We think it is, and so do you.

Don't Play Into the Hands of the Republicans.

We learn that several heretofore staunch Democrats of this county have expressed an intention to vote with the Populists in the coming election. We are sorry to hear this, and sincerely hope that those Democrats may reconsider this matter and conclude to remain with the party for which they have so long fought. Let every Democrat remember that for thirty years and more we have been fighting the battles of the people against the onslaughts of corporate greed as countenanced and fostered by the Republican party. Let us bear in mind that now is the only time since 1860 that Democracy has completely triumphed, and that she can not be expected to right the wrongs perpetrated by Republican misrule of thirty years, in a single year. It is not the Democratic party that has caused the unrest but vicious Republican legislation. That party graciously relieved by Democracy, of the burden that it had created, has been since March 1893, looking wise and charging its errors to Democratic account.

Democrats should think for themselves and they will see the scheme of the Republicans and seeing it no Democrat will weaken his party by voting the Populist ticket. For a Democrat to do so is the rankest folly. It is playing into the hands of the Democratic party's arch enemy, the Republican party. Don't do it, but stand with the old party and assist in regaining the ground lost last fall in Ohio.

THE Republican party is for the remonetization of silver as soon as England will permit it! The Democrats are for its remonetization without the advice or help of England or any other nation. That's the difference between the g. o. p. and the Democrats. Now which is the true friend of America? The Democrats, of course.

The demonetization of silver made gold appreciate. It has appreciated more than 55 per cent., hence the farmer and the mechanic has to give of his products from 33 to 100 per cent. more to pay a debt or buy a gold dollar than he used to give when silver was treated as money.

The second Democratic candidate for Congress, nominated in the Thirtieth district, at Fremont, last Tuesday, is Boston G. Young, of Marion, who was one of the leading aspirants in the first convention.

Will the republican editors of Henry county who are so anxious to have democrats vote for republican county officers, please inform the people what was ever gained by the public in the election of republican county officials in the past, and especially so when the board of county commissioners was republican. A change of men, "only that and nothing more." Yet it was more, the people found out that these republican officials were expensive luxuries, and those who were instrumental in putting them there almost took a solemn oath that they "would not do so any more!" Then, how was it when democrats put Geo. Russell into the auditor's office? He, too, proved an exceedingly expensive republican luxury, costing the people between four and five thousand dollars a year! Now, will democrats be led into trying over again the same thing at the coming November election? We do not believe they will.

WHEN McKinley seeks to convey the impression that the democratic party did more for the sugar trust than the republican party did, he seeks to deceive. He says what he knows to be false. Here are his words: "An agreement made in absolute secret that sugar should be taken from the free list, where the republican party had put it, and taxed for the benefit of the sugar trust, which tax should be borne by the American consumer."

While this is an admission that the consumer pays the tax, it is, in other respects, a misstatement of fact. Mr. McKinley knows that Havemeyer and other officers of the sugar trust testified under oath before the senate investigating committee that the McKinley law was far better for the trust than the senate bill which is now a law. Raw sugar was on the free list under the McKinley law, and that helped the trust because it got its raw material free of duty. At the same time the tax on refined sugar was a direct protection to the trust and helped it that much more. Under the new tariff law differential, or duty on refined sugar, is just one-half what it was in the McKinley law, and takes millions of dollars away from the trust that the republican law gave it. The duty of 40 per cent. on raw sugar goes to the government, and not the trust. It is a source of revenue and helps pay the expenses of running the government. So sugar is not taxed for the benefit of the trust, and McKinley stoops to downright falsehood when he says it is.—*Toledo Bee*.

WILL the republican editors of Henry county who are so anxious to have democrats vote for republican county officers, please inform the people what was ever gained by the public in the election of republican county officials in the past, and especially so when the board of county commissioners was republican. A change of men, "only that and nothing more." Yet it was more, the people found out that these republican officials were expensive luxuries, and those who were instrumental in putting them there almost took a solemn oath that they "would not do so any more!" Then, how was it when democrats put Geo. Russell into the auditor's office? He, too, proved an exceedingly expensive republican luxury, costing the people between four and five thousand dollars a year! Now, will democrats be led into trying over again the same thing at the coming November election? We do not believe they will.

WHEN McKinley seeks to convey the impression that the democratic party did more for the sugar trust than the republican party did, he seeks to deceive. He says what he knows to be false. Here are his words: "An agreement made in absolute secret that sugar should be taken from the free list, where the republican party had put it, and taxed for the benefit of the sugar trust, which tax should be borne by the American consumer."

While this is an admission that the consumer pays the tax, it is, in other respects, a misstatement of fact. Mr. McKinley knows that Havemeyer and other officers of the sugar trust testified under oath before the senate investigating committee that the McKinley law was far better for the trust than the senate bill which is now a law. Raw sugar was on the free list under the McKinley law, and that helped the trust because it got its raw material free of duty. At the same time the tax on refined sugar was a direct protection to the trust and helped it that much more. Under the new tariff law differential, or duty on refined sugar, is just one-half what it was in the McKinley law, and takes millions of dollars away from the trust that the republican law gave it. The duty of 40 per cent. on raw sugar goes to the government, and not the trust. It is a source of revenue and helps pay the expenses of running the government. So sugar is not taxed for the benefit of the trust, and McKinley stoops to downright falsehood when he says it is.—*Toledo Bee*.

WAGES GOING UP.
UNUSUAL PROSPERITY IN FACTORIES.

More New Woolen and Cotton Mills Than for Four Years.

A 25 Per Cent. Wage Advance. These are the bad times, very bad times, for political wool growers and calamity howlers. Not only do prices of domestic wools remain firm, at an advance of about 10 per cent. above the McKinley prices of two months ago, but there is unusual activity in the woolen and cotton mills. The *Wool and Cotton Reporter* devotes a page every week to a "Bulletin of New Enterprises," which, however, includes mills shutting down. There used to be more mills shutting down than starting up; but since the passage of "the free trade Wilson bill," which was to "ampliate" the woolen industry, the record has been a remarkable one—better than for any two weeks during the four years of McKinleyism.

For the week ending September 6 the *Reporter* mentions five new mills, one of which is a cotton mill, to cost \$100,000; twenty-eight enlargements and improvements, and twenty mills starting up, one of which has been closed nine months and another five years.

Rawiters Bros., of Stafford Springs, are mentioned as having secured a new and satisfied weaver, giving them a 25 per cent. advance in wages. This wage advance is more than the *American Economist* could find in any protected industry during the first two years of McKinleyism.

The record is a good one, but that for the week ending September 13 is better. During this week there were fifteen items under the column headed "New Mills." One of the mills mentioned is to have 48,000 spindles, at d to be the largest cotton mill in the South.

Another, for making cotton, wool and worsted yarn, is to occupy a building 110 by 200 feet, which structure alone is to cost \$30,000. "The plans for the new plant," says the *Reporter*, "have been ready for some time, but it is said the construction of the tariff question." It is located at Philadelphia.

Another cotton mill, with 25,000 spindles, is to be built at Gaffney, S. C. with a capital of \$100,000.

Another cotton mill, with \$400,000 capital, is proposed for Bath, S. C. Two hundred thousand dollars have already been subscribed.

The other new mills are for the manufacture of woolen, cotton, knit hosiery, and silk goods.

Under the column "Enlargements and Improvements" there are eighteen mentions. Under the column "Starting Up and Shutting Down" twenty mills are mentioned as having started or about to start up. One of these has been closed since April last, another over a year, and a third for two years. All three are woolen mills. Only four are mentioned as shutting down—one to make repairs, another for two weeks, another because of a death, and the last is running on short time on account of low water.

If this sort of business goes on until November the result of the election may not

be so satisfactory to the Republicans as they have been anticipating. They must either manage to keep the mills closed or to keep the backwoods voters from knowing that more wheels are turning than ever before. Can they state of prosperity until after election? If the drought had only lasted two months longer Republican prospects would be brighter.

A lovely line of ice wool shawls just received at Horn & Nordens.

COURT OF COMMON PLEAS.

The Wind Up of the September Term.

Margaret Vogel, executrix, etc., vs The B. & O. R. R. Co. Verdict \$1800; motion for new trial granted.
 Charles H. Swigart, Assignee, etc., vs Peter H. Meacham et al.; continued.
 Daniel Hartnett vs Smith & Ball. Leave to plaintiff to amend affidavit for reply.
 John C. Girdell, Co. vs J. S. Suber. Judgment for plaintiff \$262.97; defendant excepts.
 Augusta B. Manning vs Francis C. Vocke et al.; continued.
 J. W. Hanna, Guardian, etc., vs Harry R. Gass et al.; continued.
 Edwin Mansfield et al. vs E. J. O'Hearn. Leave to file amended answer by Oct. 15, 1894.

 3:00—Unfinished Business.

Colored Dress Goods.

Look through the wonderful assortment at Horn & Nordens.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quickly relieved. The severe pain of a burn or scald promptly soothed and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which requires a cure by the use of Chamberlain's Pain Balm. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by D. J. Humphrey, Napoleon, Ohio.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quickly relieved. The severe pain of a burn or scald promptly soothed and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which requires a cure by the use of Chamberlain's Pain Balm. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by D. J. Humphrey, Napoleon, Ohio.
